I hope you'll take the time to try to understand how these patterns work. Besides appreciating the workings of the masterminds who created them, you may be stimulated to play with or extend the ideas for your own work.

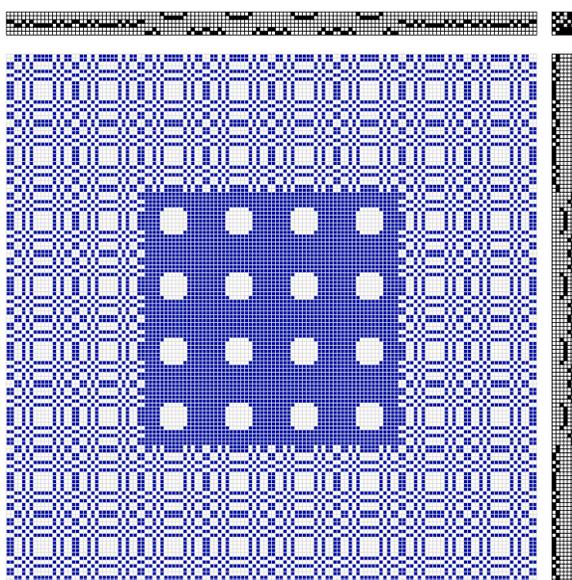

For the historical record, I must tell you that Mr. Frickinger had a drawing for each of his patterns. In order to match his drawing, I had to make some adjustments in each of his tie-ups or treading orders. A few of his patterns are among the following.^F D40-D46 ■
